

Mathieu Vanderlynden

I'm looking for an internship

SUMMARY

Proactive learner with a background in construction, I decided to set myself new challenges, after 8 years in construction in France and Switzerland.

Highly motivated individual with a passion for UI design, dev and tech. I want to move toward new projects that I am passionate about.

Transitioning into UI design and seeking an internship to jumpstart my career by validating my diploma is in this context that I allow myself to send you my application file.
